Could you please send me a catalog from Industrial Records if you still exist. I know TG is no longer together. I filled the questionnaire out for fun, and because hopefully you will respond to my request for a catalog, if possible.

I am also especially interested in getting some Current 93 albums; particularly some of the older ones like Earth Covers Earth, etc. If you know where I could get some Current 93, let me know. I don't even know what label(s) they're on. I do know they're next to impossible to get around here, so any help you can give me would be appreciated. By the way, I love TG. Thank You

Sincerely

Mary Jones
